

Headquarters Training and Development Leadership and Development Program

Affiliation: Office of Chief Engineer NASA Headquarters
Duty Location: Langley Research Center, Hampton, VA
Title: Program Analyst
Organization: Independent Program Assessment Office (IPAO), Office of the Chief Engineer.

Contact: Timothy J. Flores; Evaluation and Assessment Group Lead
(757) 864-9154
timothy.j.flores@nasa.gov

Target Grade: GS 14/15

Value Proposition: The IPAO provides one of the best opportunities to gain a broad perspective of Agency activities and investments. Exposure to senior level consultants, NASA Associate Administrators, Program Executives and Program Managers is required throughout the process. The Charter of the IPAO is to assess program and project performance by leading non-advocate reviews across all Mission Directorates.

Position Overview:

- Exercise leadership by leading change through program assessment, formulation and implementation of new policies within NASA that emphasize the Agency vision and integrate Agency goals, priorities, and values.
- Lead teams of senior level personnel carrying out broad assignments in assessing and validating the cost, schedule and technical status of space and aeronautics programs.
- As an Agency lead for program and project assessment the incumbent must strive to be results driven by formulating strategies, performing strategic planning and implementing IPAO policies.
- In the process of program assessment, provide business acumen in all aspects of NASA investments.
- Must possess the ability to build coalitions, through effective communication in an extensive network of senior level personnel.
